

ABOUT ME

Driven software engineer with 2+ years of experience leveraging AI and data science expertise to tackle real-world challenges. Successfully spearheaded the development and deployment of NLP models, Retrieval Augmented Generation (RAG) using LLMs. Proficient in CI/CD pipelines, Software Development, NLP, Machine Learning, and Data Handling. Fueled by personal and professional projects. Eager to work on impactful projects pushing the boundaries of technology.

HOBBIES

Reading, Cycling, Football, Sports Analytics, Tech, Cooking

LANGUAGES

English, Nepali, Hindi, Basic German

AWARDS AND CERTIFICATES

- “Invaluable member” award for Spearheading end-to-end development of RAG at Intralinks®.
- \$4000 per year scholarship during bachelor’s degree studies.
- Deep Learning, Web-Scraping, Image Processing Certifications from Coursera.
- Published “Directed Energy Deposition via Artificial Intelligence Enabled Approaches” paper under the Ministry of Defense in India.

EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY
Vellore, Tamil Nadu, India
Jul 2018 – Apr 2022

- **Bachelor of Technology in Computer Science Engineering**
 - 8 semesters of rigorous engineering courses focused on Computer Science, Computer Engineering, and Mathematics, earning a total of 184 CPs.
 - Graduated with a CGPA of 8.77.
- **Higher Education Entrance Qualification**
 - Studied Science Stream with Mathematics 1, Mathematics 2, English, Physics, Chemistry, Nepali, and Computer Science.
 - Graduated with overall score of 78.9%.

UNITED ACADEMY SECONDARY SCHOOL
Kumaripati, Lalitpur, Nepal
May 2015 – Jun 2017

WORK EXPERIENCE

MAGNUS Consulting
Kathmandu, Nepal
Mar 2025 – Dec 2025

- **Software Engineer**
 - Spearheaded the development and deployment of internal document management application with SonarQube integration.
 - Implemented and added security features for enhanced reliability to the application using Spring Security.
 - Developed and integrated iterative features to tracker application based on events and listeners.

INTRALINKS®
Hyderabad, Telangana, India
Jun 2022 – Nov 2024

- **Associate Software Engineer**
 - Designed and developed AI-driven applications using Python, enhancing system efficiency and operational consistency.
 - Collaborated with cross-functional teams, including data scientists, engineers, and product managers, to ensure seamless integration of AI components into production systems.

INTRALINKS®
Hyderabad, Telangana, India
Feb 2022 – Jun 2022

- **Software Engineer Intern**
 - Served as an R&D Intern leveraging the MERN stack to develop innovative solutions addressing existing technical challenges.
 - Designed and delivered a functional translation service solution for a core product, effectively presenting it to key stakeholders.

SKILLS

Programming Languages
Frameworks & Tools

- Python, JavaScript (Node.js), Bash, SQL, Java
- Flask, FastAPI, Django, MERN Stack, Springboot, Git, Docker, Kubernetes (Helm), Jenkins, pandas, numpy, matplotlib, seaborn
- PostgreSQL, MongoDB, Vector DBs (e.g. FAISS, Chromadb, PGVector)
- PyTorch, TensorFlow, LangChain, RAG pipelines, model training/evaluation, data analysis and preprocessing

Databases
ML and AI
